### UNAUDITED SALES VOLUME IN JULY 2014

The board of directors of Geely Automobile Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) is pleased to announce that the total sales volume of the Group for the month of July 2014 was 20,124 units, a decrease of approximately 41% over the same period last year and down approximately 36% from June 2014. The Group’s exports volume was 4,117 units in July 2014, down around 67% from the same period last year, due to further deterioration in political environment in the Group’s major export countries like Russia, Ukraine and the Middle East. During the month of July 2014, the Group’s total sales volume in China market was 16,007 units, a decrease of around 26% from the same period last year, mainly driven by the sharp drop in the sales volume of “EC7”, ahead of the imminent launch of its upgraded version: “Xindihao” in late July 2014. On the positive front, during the month of July 2014, the total retail sales volume of the Group’s dealers in the China market was almost 40% higher than the wholesales volume, reflecting the continued stable underlying demand for the Group’s products in China. The total sales volume in the first seven months of 2014 was 207,310 units, down about 30% from the same period last year.

During the month of July 2014, the sales volume of the Group’s best-selling model “EC7” was 5,497 units, a decrease of about 64% over the same period last year. The aggregate sales volume of “GX7” and “SX7”, the Group’s Sport Utility Vehicles (SUVs) was 4,003 units in July 2014, a decrease of about 10% over the same period last year.

Please note that the sales volumes above are unaudited figures and have not been confirmed by the Company’s auditors and may be subject to adjustment and final confirmation. Shareholders and potential investors are advised to read carefully the financial results of the Group when it is published.
