**SALES VOLUME DOWN 41% YOY**

(HONG KONG, 8 August 2014) --- Geely Automobile Holdings Limited ("Geely Automobile"/the "Group")(Stock code: 175) announced that the total sales volume of the Group for the month of July 2014 was 20,124 units, a decrease of approximately 41% over the same period last year and down approximately 36% from June 2014. The Group's exports volume was 4,117 units in July 2014, down around 67% from the same period last year, due to further deterioration in political environment in the Group's major export countries like Russia, Ukraine and the Middle East. During the month of July 2014, the Group's total sales volume in China market was 16,007 units, a decrease of around 26% from the same period last year, mainly driven by the sharp drop in the sales volume of "EC7", ahead of the imminent launch of its upgraded version: "Xindihao" in late July 2014. On the positive front, during the month of July 2014, the total retail sales volume of the Group's dealers in the China market was almost 40% higher than the wholesales volume, reflecting the continued stable underlying demand for the Group's products in China. The total sales volume in the first seven months of 2014 was 207,310 units, down about 30% from the same period last year.

The Spokesman of Geely Automobile said, "During the month of July 2014, the sales volume of the Group's best-selling model 'EC7' was 5,497 units, a decrease of about 64% over the same period last year. The aggregate sales volume of 'GX7' and 'SX7', the Group's Sport Utility Vehicles (SUVs) was 4,003 units in July 2014, a decrease of about 10% over the same period last year."

Detailed sales volume data will be available upon request. Please contact Ms Tracey Tong at Prime International for further information. The sales volume figures released are based on a more stringent recognition criterion, requiring all sales to be contracted, paid and delivered before it would be recognized. These figures, however, are preliminary figures and will be subject to changes and final confirmation.
