[Press Release]

Geely Automobile Holdings Limited
SALES VOLUME FOR MAY 2015 REACHED 38,395 UNITS
SALES VOLUME UP 25% YOY

(HONG KONG, 4 June 2015) --- Geely Automobile Holdings Limited ("Geely Automobile"/the "Group")(Stock code: 175) announced that the total sales volume of the Group for the month of May 2015 was 38,395 units, an increase of approximately 25% over the same period last year, but was down approximately 4% from April 2015. The Group's exports volume was 4,164 units in May 2015, down around 34% from the same period last year, due to the challenging environment in some of the Group's major export markets during the period. In the month of May 2015, the Group's sales performance in the China market remained strong, with the total sales volume up around 41% year-on-year to 34,231 units. The overall sales volume in the first five months of 2015 was 219,038 units, up about 40% from the same period last year and achieving 49% of the full year sales volume target of 450,000 units in 2015.

The Spokesman of Geely Automobile said, "During the month of May 2015, the combined sales volume of 'EC7' and 'Xindihao' was 13,929 units, an increase of about 47% from the same period last year. The aggregate sales volume of 'GX7', 'SX7' and 'GX9', the Group's Sport Utility Vehicles (SUVs), was 5,615 units in the month of May 2015, an increase of about 4% from the corresponding period last year. The combined sales volume of 'Vision' sedan and its new version was 8,304 units in the month of May 2015, more than sixfold increase when compared with the same period last year. The Group officially launched 'GC9' (博瑞), its first B-segment sedan, in early April 2015 and achieved an encouraging sales volume of 2,000 units, an increase of around 141% month-to-month, in May 2015. So far, the order book for 'GC9' has been better than the management's initial expectations."

Detailed sales volume data will be available upon request. Please contact Ms Tracey Tong at Prime International for further information. The sales volume figures released are based on a more stringent recognition criterion, requiring all sales to be contracted, paid and delivered before it would be recognized. These figures, however, are preliminary figures and will be subject to changes and final confirmation.
