

Geely Automobile Holdings Limited
SALES VOLUME UP 0.5% YoY IN SEPTEMBER 2008

(HONG KONG, 14 October 2008)--- Geely Automobile Holdings Limited ("Geely Automobile"/the "Group")(Stock code: 175) announced that total sales volume of the Group's five 91%-owned subsidiaries was 15,975 units in September 2008, up 0.5% over the same month last year and up 12.6% from August 2008. For the first three quarters of 2008, total sales volume of the five subsidiaries was 152,899 units, up 22.4% over the same period last year, and achieving 66% of their full year sales volume target of 230,000 units.

The spokesman of Geely Automobile said, "Although the total sales volume achieved by the Group's five operating subsidiaries during September 2008 was slightly below the management's expectations, their sales performance during the period still remained respectable given the current trend of slow down in automobile demand in China and the rapid deterioration in market sentiment after the global credit crunch originated in the United States. Despite this, the sales performance of the Group still overwhelmed its peers so far this year, partially helped by the increased demand in the export markets. In September 2008, close to 3,000 cars were exported and sold to oversea countries by the operating subsidiaries."

Detailed sales volume data will be available upon request. Please contact Ms Tracey Tong at Prime International for further information. The sales volume figures released so far are based on a more stringent recognition criterion, requiring all sales to be contracted, paid and delivered before it would be recognized. These figures, however, are still preliminary figures and would be subject to changes and final confirmation.
